# A Sensational New Hybrid Lilac

## *Syringa Sweginzowii Albida* (Lemoine)

This new hybrid lilac was originated by Mr. Lemoine of Nancy, France, who without a doubt has created the world's finest Lilacs, Peonies, and many other things. This Lilac is not a so-called French Hybrid, but a cross between *S. Sweginzowii Superba* and *S. Wilsonii*. At the end of May it produces a profusion of many branched panicles of the most elegant character; the large long-tubed flowers with reflexed lobes are of a delicate pale pink passing to white and are very sweet scented. The flowers remind one of large trusses of pink pearls. Hardy anywhere.
